SKILLS

- Strategic Planning
- Problem Solving
- Crisis Management
- Creative Thinking
- Data Analysis
- Brand Development
- Negotiation
- Customer Orientation
- Adaptability to Change

LANGUAGES

- English (Fluent)
- Telugu
- Hindi

CERTIFICATIONS & COURSES

- [CS50's Introduction to Python](#)
- HubSpot's [Digital Marketing](#)
- [Coursera Python for Data Science, AI & Development](#)

PROFILE

B.Tech AI & Data Science student who ships end-to-end. I've built and deployed production apps using React, Node.js, Firebase, and LLM APIs — from GenAI career tools to messaging automation. Comfortable owning a problem from design to deployment, and quick to pick up whatever the stack needs. Looking for a data science / software internship where I can build real things.

WORK EXPERIENCE

Fraylon Certificate Verification System

React, Node.js, Firebase, Google Gemini API 2026

- Built a tamper-resistant certificate verification platform for Fraylon Technologies LLP using Next.js 14 App Router, Supabase, and HMAC-SHA256 signing — QR codes on issued certificates resolve to a public verification page at verify.fraylontech.com with four distinct states: valid, revoked, tampered, and not found.
- Implemented strict HMAC payload signing (no normalization — signs exact bytes displayed) to surface tampered certificates as a separate state from revoked, with Upstash Redis sliding-window rate limiting (30 req/60s per IP) to prevent scraping and ensure reliable verification in production serverless environments.

Whatsapp Automation

JavaScript and TypeScript 2023

- Developed the **WhatsApp Automation** project, reducing manual messaging efforts by **70%** and handling **1,000+** messages per hour with 97.5% accuracy. Utilized [technologies like venom-bot] to streamline tasks like bulk messaging and scheduling, boosting productivity and communication efficiency.
- programmatically schedules and sends messages, automating repetitive communication tasks and reducing manual intervention by ~90%.

EDUCATION

St Mary's Engineering College

2023 - 2027

Artificial Intelligence & Data Science
